THE SUMMER SESSION

SUMMER instruction began at Middlebury College in 1909 on the plan then generally prevalent of offering a few courses each in a considerable number of subjects. The difficulties before a small college in sustaining meritorious short courses upon a program at once so broad and so thin were apparent from the start, and much study was given to the problem of so directing the work of the Middlebury College Summer Session as to enable it to make in due time a distinct contribution to educational progress. As a result there has been developed at Middlebury a type of work which is unique among the summer schools of America. The Summer Session of 1925 brought to Middlebury students and teachers from thirty-four states and foreign countries. They represented ninety-three of the leading colleges and universities in the country and twenty-one normal schools.

THE FRENCH AND SPANISH SCHOOLS

THE organization of the French and Spanish Schools with separate residence and dining halls for each is designed to produce the best conditions obtainable for the intensive pursuit of these languages. No elementary courses are offered, and from the first students speak the language of the school. Geography, commerce, industry, art, music, history, government, and institutional and socal life are covered by the variety of courses offered. Native instructors only are employed and the needs of every student receive attention. The standard of work has steadily advanced in each school. Seventy-seven per cent of the students enrolled in these two schools in 1925 held baccalaureate degrees and many held advanced degrees. While not exclusively graduate schools, only those undergraduates will be admitted whose attain-

ments are satisfactory to the Deans of the respective schools. The right is reserved to place all students in the classes best suited to their advancement. The social and recreational life of the schools is so arranged as to furnish constant conversational stimulus outside the classroom to promote mastery of the language and ease and freedom in its use.

THE ENGLISH SCHOOL

THE plan of the English School is to bring together under ideal surroundings a group of writers, students, and teachers of English. The work of each season is complete in itself yet so related to the work of previous and succeeding years that candidates for the degree of Master of Arts in English may work toward this end. A four-fold division of the field provided for the needs of various types of students of English: (a) composition of different types and degrees of proficiency, involving training in various forms of creative writing: (b) critical appreciative studies in the English language and literature in courses suited to the needs of students pursuing the degree of Master of Arts; (c) the technique of teaching English, involving grammar, rhetoric, composition, reading, literature, and the drama, with laboratory problems: (d) the theory and practice of dramatic expression, making use of the facilities of the little theatre. The English School is conducted at Bread Loaf Inn, on the edge of the Battell Forest, twelve miles east of the College in the midst of Vermont's most beautiful mountain scenery.

THE MUSIC SCHOOL

A STUDIO in voice building and singing has been conducted for many years in connection with the Summer Session of Middlebury College. In 1922 courses were added in piano,

organ, violin, 'cello, harmony, public school music, musical appreciation, platform art and recital repertoire. Certificates covering the amount and quality of the work accomplished may be secured by students satisfactorily completing courses. A house is provided by the college for the residence of women students of the Music School not living in Middlebury. In this way excellent board and comfortable rooms can be obtained at a reasonable price and at a convenient distance from the studios.

CERTIFICATES

STUDENTS satisfactorily completing their courses with examinations will be given certificates indicating the work done. These certificates are useful evidences of professional study, and often are accepted by examiners, school boards, and superintendents in lieu of examinations. No certificates are issued to students who do not take the examinations.

MASTER'S DEGREES

IN the various schools of the Summer Session, courses are provided which lead to the Master's Degree. To obtain the Degree of Master of Arts or Master of Science at Middlebury College, thirty credits are necessary, of which ten may be taken at some other institution and six in a Middlebury foreign school. Thirty credits in graduate work may be gained by proficient students in four Summer Sessions, eight credits being permissible for graduate students in a single session. *The Committee on Graduate Work* passes upon the credentials and courses of candidates for the Master's Degree. The approval of this committee must be secured before credits earned at other institutions may be counted toward the Master's Degree at Middlebury. Address Professor

P. C. Voter, Chairman. Candidates for a Master's Degree must hold a baccalaureate degree from Middlebury College or some other college approved by this committee. Students desiring to count credit taken at the Middlebury College Summer Session toward degrees to be secured elsewhere must secure permission to do so from the institution to which they desire the credits transferred.

Besides the regular examinations in courses all candidates for the Master's Degree will be examined in the subject chosen for their major study, and at the discretion of the instructor under whose direction the graduate work is done may be required also to present a thesis. Degrees are conferred both at Commencement and at the close of the Summer Session following the completion of the work. A fee of $15 is required for the final examination and diploma.

CREDITS

THOSE who desire credits must indicate that fact when they register, and, if candidates for a degree, whether baccalaureate or advanced, they must present evidence of their qualifications before they will receive credit. Not more than six credits may be gained by an undergraduate at a Summer Session, and not more than eight credits by a graduate student. No student will receive credit who has completed less than the full session (thirty classroom exercises) not including examinations.

THE SUMMER SESSION OF 1926

THE French and Spanish Schools will open for registration on Friday, July 2, 1926, when announcements will be given of the first lectures and assignments of work. The final

examinations in these schools will be conducted August 16-18. Classes will meet five days a week.

The English School will be conducted at Bread Loaf Inn from June 29 to August 13, Wednesday and Thursday, August 11 and 12 being used for examinations. Exercises in the English School are conducted five days a week with Saturdays left free for out-of-door life in the mountains and forest and on the tennis courts.

The Music School will open July 5 and continue until August 13.

Attendance is limited to approximately one hundred and twenty students in the English School, one hundred in the Spanish School, and two hundred and twenty-five in the French School.

The French and Spanish houses of residence at Middlebury will open to receive students Friday night, July 2, and dinner will be served after the arrival of the evening trains. Both houses will close after breakfast on Friday, August 20. Bread Loaf Inn will receive students of the English School at dinner, Tuesday noon, June 29, and will supply breakfast Friday morning, August 13. Students desiring to become guests of the Inn before the opening of the English School may do so by making early application, stating the date upon which they wish to arrive.

ADMISSION

In each of the schools students may enter such courses as they are qualified to take, without examinations and without being candidates for degrees. All elections of courses, however, must be approved by the Deans, whose authority is final, both as to the courses elected and the number that may be taken. Students who desire credit for degrees, whether

baccalaureate or advanced, must indicate that fact when they register and must present satisfactory evidence of their qualifications before they will be given credits for collegiate or graduate work. The regulations regarding graduate work will be found on pages 109-111 of Part One of the Catalogue.

BULLETINS

DESCRIPTIONS of the various schools are given in special circulars and bulletins. Those interested are invited to place their names upon the mailing list to receive such announcements. All inquiries regarding courses of study should be directed to the Deans of the respective schools, and requests for bulletins and correspondence regarding rooms should be directed to Pamelia S. Powell, Secretary of the Summer Session, Middlebury, Vermont.
